OVERVIEW

WHAT IS NEW?

RELEASE 0.13.0

- Modular Trigger System
- RPM write functionality
- Re-using zipped P2 meta data
- Bug fixes

TRIGGER SYSTEM

- Trigger → Actions
- Internal triggers, Configurable triggers
- Configurable Triggers and Actions are provided by Factories

CREATING RPMS

- Plain Java library for creating RPM files
- Stand alone functionality
 - Available on Maven Central
 - Available as Maven Plugin – Java RPM builder
 - <https://ctron.github.io/rpm-builder/>
 - Creates RPM packages without the need for »rpmbuild« or »gpg«
 - Can parse, create and sign RPM packages in plain Java
- Planned to be integrated as RPM signing service

PACKAGE DRONE

DEMO!
